HOW A CAMPAIGN RUNS INSIDE A PILLAR

01 Pick the pillar
Choose the theme that matches your product.

02 Slot it in
Your pin publishes inside that pillar's next cycle.

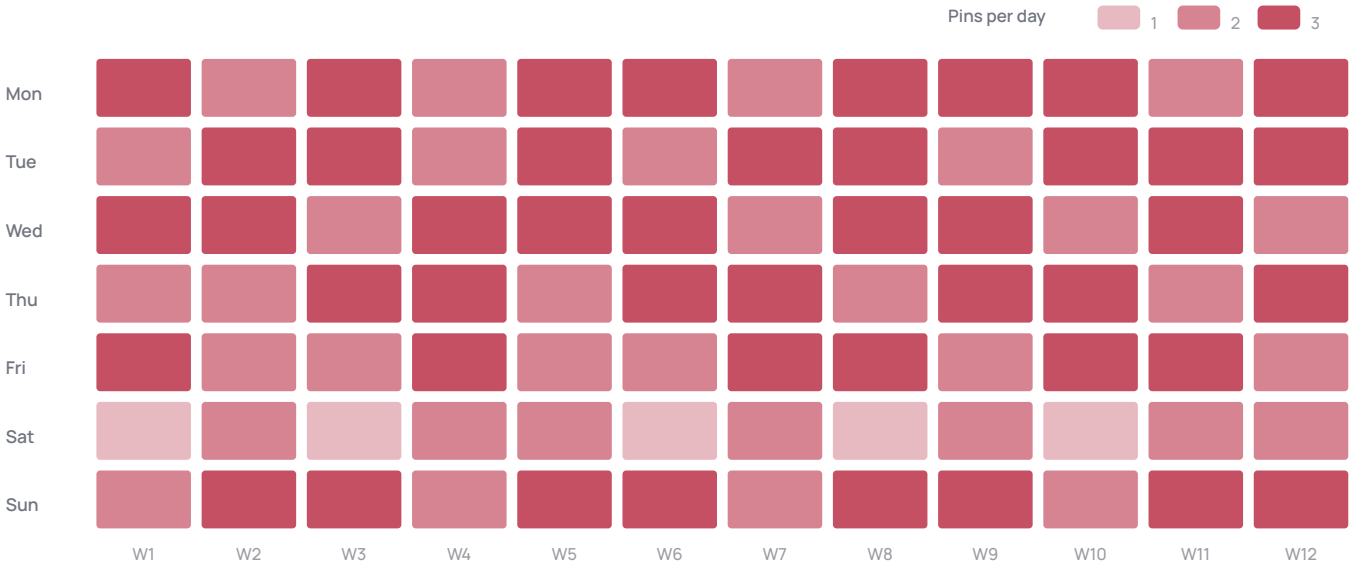

03 Track it
Impressions, saves and pin clicks for your pin only.

Publishing rhythm

A brand pin only performs if the account keeps feeding the algorithm. This one never stops.

31
PINS PER MONTH
average across the year

48
WEEKS LIVE THIS YEAR
no dead weeks

3.1
PINS PER WEEK
evenly spread

WHY THIS MATTERS TO A BRAND

- Fresh pins every week keep the account in distribution — algorithm reach compounds instead of decaying.
- A brand pin is published into a live rhythm, not a dormant grid, so it gets seen from day one.
- Publishing days are planned in advance, so campaign dates are honoured to the day.
- Pins stay live indefinitely; a campaign keeps earning saves long after the invoice.
